

# SENATE TO RESUME FIGHT OVER TREATY

## TWO MEXICANS KILLED IN RUNNING BATTLE WITH THREE OFFICERS

Believed Two Men Killed Each Other While Being Chased In Automobile by Deputy Sheriffs; Many Shots Fired In Fight In Eastern Part of City; First Thought Men Were Killed by Shots of Officers.

JOHN LOPEZ, 28 years old, a resident of Juarez, and Eladio Esquivel, 26, also of Juarez, are dead as a result of a battle with deputy sheriffs at 4 o'clock Thursday morning. The battle occurred in the neighborhood of Piedras and Alamedas streets and raged over several blocks. It was first believed that the men were killed by deputy sheriff T. G. Giron, but facts brought out later indicate that the men could not have been killed by the officer, and led to the belief that they killed each other.

According to T. E. Green, deputy sheriff, in and around El Paso, Giron, the deputy sheriff, were returning from a trip down the lower valley. Mr. Reynolds, a chauffeur, was driving the car. As the officers drove along, they saw two men get onto the fenders and, hanging by one hand, opened fire upon himself and his companion. A third gun was discharged from the car. After approximately 15 or 20 shots had been fired, two struck the officers. One, given them picked up a Winchester rifle from the bottom of the automobile and shot the two men in the running board of the fender. Both got back in the automobile.

**Drop Dead Bodies.**

The officers saw what they believed to be two men dead and then continued on their way to the station.

"They circled about at 45 mph speed," Green said. "Then they turned into Bayard street. As they neared a bridge, another officer could have caught them but we did not think of it which caused us to skid. They made it across the bridge and came across the border."

Giron, 26, one of the shooting corresponds with that of the other men with him.

The bodies were taken to the Peak medical office, being viewed by coroner H. W. Rawlings. On the opposite quantity of personal possessions a transport were found on Lopez's body, by which he was identified.

Coroner conducted inquiry. J. C. Starnes, another police chief, conducted the investigation which leads to the belief that the two men killed each other. He presented the results of his investigation at a formal inquest before coroner Rawlins at

**Capt. Matlack Is Fully Vindicated By An Army Inspector Of All Charges Preferred By J. J. Kilpatrick, Of Marfa**

CAPT. LEONARD F. MATLACK, 10th cavalry, has been exonerated of every charge preferred against him at Washington by J. J. Kilpatrick of Marfa.

The findings of Maj. Everett Collier, inspector general's department, assistant inspector general of the Southern department, acquits Capt. Matlack of all the charges made by Kilpatrick, who went to Washington to protest against a bill in congress retiring Matlack with his rank, and who later came to El Paso and wrote out a warrant for a man alleged to be a member of Capt. Matlack's troop, charging that the man had attempted to murder him and his wife in their home in Marfa.

Collier charged Capt. Matlack with writing false reports of raids with having knowledge of the attack upon him and Mrs. Kilpatrick, and induced several of them out of the part of Capt. Matlack in and of ransacking the two Americans.

**Moonshiners Build Stockade Around Still**

HUNTINGTON, W. Va., Dec. 18.—Moonshiners in Calhoun county built a stockade around their still. Then out front they placed barbed wire entanglements. Inside the stockade, they had a plentiful supply of guns and ammunition. But the day that they had planned against—the day when the revenue officers came—found the whole garrison away. As a consequence the law officers had no trouble, sealing fifty-eight gallons of moonshine, whisky and a fine, large still.

## MEAT PACKERS TO DISSOLVE SIDE LINES

*Investments of Millions Involved Under Decree to Be Entered Into.*

### OUTLINE OF PLAN IS AGREED UPON

**Must Confine Activities to Meat, Poultry, Butter, Eggs and Cheese.**

CHICAGO, Ill., Dec. 18.—A dozen or more important side line interests of the Chicago meat packers involving investments of many millions of dollars will be disposed of under the stipulated decree soon to be entered in the United States court at Washington on motion of attorney general Palmer.

While representatives of the packers today declined to discuss the details of the decree, will be required to confine the business activities to the production of meat, poultry, butter, eggs and cheese. It was learned from an authoritative source, that the outline of the plan had been agreed upon.

Among the lines of business from which it is said the packers will be ordered to withdraw under the stipulated court decree are the following: Leather, canned fruits and vegetables, flour, meal, flour mill, starch, fertilizers, cold storage flat, refrigerator car lines, cereals, glue, sporting goods and the control of stockyards.

Dissolution of the wholesale grocery interests of the "big five" packers would only slightly affect any of them.

Louis Swift, head of Swift & Co., told today that he had met with A. Mitchell Palmer, United States attorney general, who announced today that he and his associates had agreed to withdraw all outside interests of the packers from meat packing and fertilizer side lines would not be affected, Mr. Swift said.

"We have received word," he said, "that the American Board of Trade has been informed of our plan to disband the side lines." Mr. Swift, head of Swift & Co., and his associates formed the National League, known as National Leather, was formed.

He said that the other members of the group known as the "big five," Wilson and company announced some time ago that it had disposed of its branches of industry affiliated with the wholesale grocery business.

The Mexican government's reply brought caustic comment from western Paul, Republika, New Mexico, chairman of the Senate investigation committee, when he read the text of Carranza's message Wednesday.

"This government has com-

menced with an 'elimination' and not with a 'purge,' a 'pour parter' and with a final count of its position," he said.

**CARRANZA REPLY DISPLEASES STATE DEPARTMENT OFFICIALS**

**Officials Not Impressed by Text of Carranza Note; Fall Assails Stand of United States On Policy Toward Mexico; Declares Mexican Chief Brags of Insults to America; Tires of "Poor Parler."**

WASHINGTON, D. C., Dec. 18.—Mexico's reply to the last American note in the case of American consul George Jenkins created a favorable impression and frank displeasure when received by officials.

Among the lines of business from which it is said the packers will be ordered to withdraw under the stipulated court decree are the following: Leather, canned fruits and vegetables, flour, meal, flour mill, starch, fertilizers, cold storage flat, refrigerator car lines, cereals, glue, sporting goods and the control of stockyards.

Dissolution of the wholesale grocery interests of the "big five" packers would only slightly affect any of them.

The official text was said to differ only slightly from that contained in Associated Press dispatches Tuesday night from Mexico City.

The Mexican government's reply brought caustic comment from western Paul, Republika, New Mexico, chairman of the Senate investigation committee, when he read the text of Carranza's message Wednesday.

"This government has com-

menced with an 'elimination' and not with a 'purge,' a 'pour parter' and with a final count of its position," he said.

Senato Fall referred to a number

of acts which he said were charged to Carranza and declared that the American note in the case of American consul knew full well that the United States was thoroughly familiar with them.

**Austrian Mexican Chief.**

"Carranza knows further," he said, "that he has committed a grave, possible indignity, outrage and insult and that he has capitalized his influence in offering such outrage and insult to the American people."

He said that the chief has done much to insult the United States itself and to offer personal insults with impunity to the American people.

Should persons and corporations receiving the alleged overcharges refuse to make voluntary restitution, the committee recommended that civil action be instituted by the government.

**TRAIN SERVICE RESTORED IN NORTHWEST REGIONS**

Chicago, Ill., Dec. 18.—Normal passenger train service was restored between the northwest and central western regions. Recovery of the railroad condition brought about by the recent fall strike of bituminous coal miners had advanced far enough to permit the resumption of service.

"In view of my recent experience in the northwest," said Mr. Swift, "I am unable to comment upon whether anything further will be done by this government in the Jenkins case or any other case other than back off, wait our dues that have come in and then eyes upwards and proclaim 'peace on earth; good will to the human race?'"

Senato Fall referred to a number

of acts which he said were charged to Carranza and declared that the American note in the case of American consul knew full well that the United States was thoroughly familiar with them.
